Databases: MySQL, PostgreSQL, Microsoft SQL Server

Frameworks/Libraries: React.js, Flask, Node.js, ASP.NET, Pandas, Numpy, Matplotlib

Developer Tools: Git, VS Code, Visual Studio, Eclipse

PROJECTS

Online Travel Reservation System | *Java, HTML, JSP, MySQL, JDBC*

- Spearheaded a full-stack development of an online travel reservation system, employing HTML/JSP for front-end, MySQL for database management, and Java with JDBC for server-side operations.
- Focused on creating a user-friendly interface and robust back-end architecture, ensuring a seamless end-to-end user experience for flight searches and reservations.
- Collaborated in a 2 person team, leveraging Git for effective version control and project coordination, demonstrating strong teamwork in a full-stack Software Developer environment.

Weather App | *JavaScript, React.js, CSS, JSX, OpenWeatherMap API*

- Engineered an interactive web application using React, Axios, and CSS, providing real-time weather updates from the OpenWeatherMap API.
- Implemented a user-centric design with responsive CSS, ensuring a seamless experience across various devices and browsers. Focused on user interaction and accessibility, enabling users to search for and view weather conditions of different locations effectively.

EXPERIENCE

Customer Service Associate

Walgreens

June 2023 – Present

Boonton, NJ

- Delivered courteous and efficient service to customers, consistently achieving a customer satisfaction score of over 90%, which contributed to repeat business and customer loyalty.
- Successfully recommended products, resulting in a 15% increase in sales and cross-sells by effectively communicating benefits and alternatives to customers.
- Assisted in training new employees, providing guidance on company policies, procedures, and customer service techniques, which improved team performance and operational efficiency.

Associate

ALDI USA

Oct. 2021 – May 2023

East Brunswick, NJ

- Proactively assisted customers by suggesting alternative and similar products, enhancing customer satisfaction and driving an increase in sales conversions by approximately 10% through effective product recommendations.
- Strengthened communication, problem-solving, and public speaking skills through daily customer interactions, effectively resolving an average of 15 customer issues per day, ensuring high levels of customer satisfaction.
- Consistently led the store in scanning accuracy, maintaining a 99% accuracy rate, which was 15% above the store average. Enhanced customer checkout flow by processing transactions rapidly, thereby reducing wait times and improving overall customer satisfaction.

Sales Associate

Staples

Dec. 2020 – July 2021

Parsippany, NJ

- Engaged customers with a consultative sales approach, increasing basket size by recommending complementary office supplies and technology products, resulting in a 20% increase in average transaction value.
- Developed and utilized extensive product knowledge of high-demand brands such as HP, Apple, and Google to assist customers, achieving a top performance rating for customer feedback with a 95% positive rating on service and support.
